Experience precision of touch with most advanced and patented Touch Technology

Powered by the patented Surface Light Wave (SLW) touch technology, it provides one of the most accurate touch capability. With response time less than 10 ms, it is paralleled by none.

The power to do anything and everything in your classroom with CloudNote Software

Coreboard 7i supports finger and pen touch, multi-touch display and gesture sensitive with an unlimited work space. Cloudnote can transform written reports into interactive digital books complete with photos, illustrations, and your own audio clips.

Use your existing teaching resources right from the word go

Teachers can bring in word documents, excel sheets, or previously created presentations in PPT, PDF, movies or audio files and create complete lesson plans in no time.

Use 'Glide Touch' feature to write or sketch a thought or capture a scene

With 'glide touch' feature you have an incredibly smooth writing experience. You can use your finger or the pen to create free flowing notes or sketch your ideas or masterpieces with ease and simplicity.

Gesture support makes the board intuitive and work the way teachers think

Whether you are using your finger or pen to write and using your palm to erase, you would find the Coreboard extremely intuitive. you are ready to make things happen by writing, erasing, tapping, swiping, dragging, and dropping with gestures.

Multitasking support gives more power to the teachers

You can use multiple applications at the same time and switch amongst them on the fly. Create multiple pages of your lesson plans and view them on the unique timeline.

Ergonomic design makes a visually delightful classroom

The beautifully designed white alloy frames make the coreboard i7 an elegant workpiece in a classroom.

Products that help you put the power of technology into teaching and learning

Why choose Coretouch?

The magic of Coretouch is that you can make it anything you need it to be.

End to end' Edu Tech solutions

Only one with a wide range of education technology solutions for pre-schools, K12 or Higher Education.

World class products

Designed by veterans of the IT and Ed tech industry, these products are unique, innovative and unparalleled in the education technology.

Software that inspires learning

Interactive software and apps included in our Coretouch displays have perpetual licenses for the life of the product. No subscription fees or hidden costs.

Certification and Accreditation

Only company with Interactive white boards certified by BIS (Bureau of Indian Standards) apart from our Interactive flat panels displays (IFPD).

Service Support infrastructure

With service engineers across the country and a robust Authorized Service Support model, we are the most well covered Edu tech company across India. Our own Service Centers are located across 4 regional locations.

Educators at Work

Our client relationship is managed by educators who are professionally qualified teachers. They speak and understand the language of educators and aspire to find the right fit for educators and learners when it comes to technology choices.

Founders with an incredible legacy

Prior to Coretouch, the founding team is credited with setting up SMART Technologies in India from scratch, introduced CLEVERTOUCH in India and have worked in institutes like Doon School, Vasant Valley School, NIIT, Microsoft, IBM, HCL Tech, Pearson and brings with them their incredible legacy of expertise and success stories.
