An interactive whiteboard for classrooms that learn together.

I Intuitive multi-touch screen for true collaborative learning

A classroom solution in a 'class of its own'

Powered by an OPS PC with Intel i5 processor, 4GB memory, 128G SSD storage, integrated speakers, Wi-Fi capability and Windows support, it uses the patented Surface Light Wave (SLW) touch technology. Its single button solution makes it a stand out offering in its category.

The power to do anything and everything in your classroom

The Coreboard A1 comes packed with the powerful CloudNote interactive software with advanced technologies like finger and pen touch, multi-touch display and gesture responsiveness.

Ready to create from the get go

Teachers can instantly create rich lesson plans by bringing the power of word docs, spreadsheets, PPTs, PDFs, movies or audio files. Additionally, Cloudnote transforms written reports into interactive digital books complete with photos, illustrations, and your own audio clips.

Thoughts, notes, or diagrams, capture everything with confidence.

With the Coreboard A1, you can use your finger or the pen to create free flowing notes, sketch ideas, with ease, simplicity, impact and all of this while having an incredibly smooth writing experience, with the 'glide touch' feature.

It works the way you do.

Writing, erasing, tapping, swiping, dragging, dropping. Its intuitive interface makes you an instant pro at whatever you intend to achieve - be it moving text, photos, and documents or creating PPTs and plotting trig functions.

More power for more powerful classrooms

The Coreboard allows a seamless experience of using multiple applications at the same time, and can switch to any app on the fly when you are using the Coreboard with Cloudnote. You can also connect a camera or a visualizer to showcase a document or object with ease.

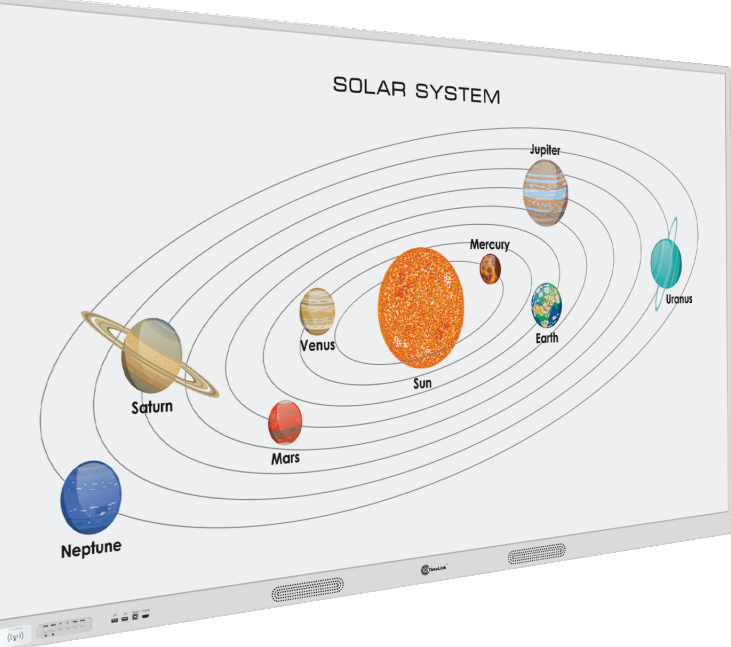

Advanced technology that simplifies teaching.

The Coreboard A1 is one of the most powerful and advanced interactive whiteboard in its category. It provides one of the most accurate and intuitive multi-touch capability, and has an unmatched response time of less than 10ms.

Ergonomic design to complement its performance

Built with high-strength low-reflection hard-coated eco-friendly composite material, the surface finish is uniquely which enables the 'glide touch' feature thereby allowing seamless collaboration.

Why choose Coretouch?

The magic of Coretouch is that you can make it anything you need it to be.

End to end' Edu Tech solutions

Only one with a wide range of education technology solutions for pre-schools, K12 or Higher Education.

World class products

Designed by veterans of the IT and Ed tech industry, these products are unique, innovative and unparalleled in the education technology.

Software that inspires learning

Interactive software and apps included in our Coretouch displays have perpetual licenses for the life of the product. No subscription fees or hidden costs.

Certification and Accreditation

Only company with Interactive white boards certified by BIS (Bureau of Indian Standards) apart from our Interactive flat panels displays (IFPD).

Service Support infrastructure

With service engineers across the country and a robust Authorized Service Support model, we are the most well covered Edu tech company across India. Our own Service Centers are located across 4 regional locations.

Educators at Work

Our client relationship is managed by educators who are professionally qualified teachers. They speak and understand the language of educators and aspire to find the right fit for educators and learners when it comes to technology choices.

Founders with an incredible legacy

Prior to Coretouch, the founding team is credited with setting up SMART Technologies in India from scratch, introduced CLEVERTOUCH in India and have worked in institutes like Doon School, Vasant Valley School, NIIT, Microsoft, IBM, HCL Tech, Pearson and brings with them their incredible legacy of expertise and success stories.
